

Internship Program 2017

Voice of Hope is a 501 (c) (3) ministry that operates primarily in the countries of Nicaragua and Honduras with a focus on sharing the Gospel with the many different people groups living in this region. VOH is headquartered in the city of León, Nicaragua with an estimated population of 390,000 people. The city of León is the cultural capital of Nicaragua and has a long history of both political statesmanship and revolution. It is the heart of where the Sandinista movement of Nicaragua began.

Voice of Hope Ministries has a long history of working in this area and the power of the Gospel has had a great effect on the people living in this region. VOH Ministries has established a great relationship with both the government and the people of this region, oftentimes ministering both at the local prison and directly to the regions police force. When the Youth Interns of 2017 travel to the region, there will be thousands of times that the gospel will be presented to people on the streets, in Fiestas, at Feedings, during VBS and at worship services. VOH Ministries has been planning for months to get ready for this Intern Program and would like to offer all youth 16 years and older the opportunity to be a part of this high impact event.
